Eric,

I forwarded it primarily as a heads up for the Pdx Harbor FS.

Keith is in the best position to answer your questions. However, it appears that Zidell is stepping forward to coordinate these issues at this time with NMFS. I will forward some additional correspondence that Keith send me.

Matt

Matt, I have not seen this. Thanks for sending it along. I have two questions:

- 1) Can these recommendations be incorporated into the current design?
- 2) What is the plan for addressing the comments?

Eric
